

HOW-TO UTILIZE BIOS INSTITUTE RESOURCES

Service availability may be modified due to the current pandemic operating status. Contact individual services for questions.

BUILDING ACCESS

The Thomas W. Keating Bioresearch Building houses several secure facilities and laboratories. Because of this, building access is protected.

Requirements

1. You will need a Biometric CatCard
2. Fill out application at: access.bio5.org
[Requirements for application](#)
 - NetID
 - Valid UA email address
 - Current work position
3. View step-by-step document here: bit.ly/2BHfS8R

MEETING ROOMS

The Thomas W. Keating Bioresearch Building offers a variety of meeting spaces to best suit your needs.

To reserve a room for your meeting:

resource-scheduler.pharmacy.arizona.edu/s/index
When reserving a room, click on room number for specifications. All first floor rooms (103, 107, and 109) require a KFS number and contract.

Room 103 is the only room equipped with in-room PC video conferencing capabilities.

ADDITIONAL SERVICES

Lab coat cleaning

Lab Coat Wash Only - \$7.21
Lab Coat Wash and Press - \$7.99
Pocket Repair - starting at \$8.00
Button Replacement - \$3.00

Delivery information

Laundry bags placed in the bin in the Receiving Room 130 at the loading dock will be picked up Monday afternoon and returned Thursday. Coats picked up on Thursday afternoons will be returned Monday.

For laundry service:

1. New labs need to establish an account and ask that the new account be associated with BIO5 labs (**in order to receive the discounted pricing**) and request two laundry collection bags be delivered to the receiving room at the loading dock.

Contact

Shaffer Dry Cleaning & Laundry
24/7 LINE 520-318-2538 | valet@shafferdrycleaning.com

2. Label bags with lab name and lab contact information.
3. Fill out form at bit.ly/3zLcQL1

HOW-TO UTILIZE PUBLIC AFFAIRS AT BIO5 INSTITUTE

Service availability may be modified due to the current pandemic operating status. Contact individual services for questions.

COMMUNICATIONS

We are the conduit for communication between the BIO5 Institute, affiliated UA departments/colleges/offices, the media, and the general public. Our role is to merge interviews with BIO5 scientists and background research into press releases, news articles, and web and/or social media content. We strive to deliver information related to BIO5's cutting-edge research to public outlets in a manner that can be commonly understood to enhance awareness and support.

Contact us to help publicize your projects, discoveries, and announcements through BIO5 and/or UA. Also available on request: interview coaching, development of talking points for media coverage, and facilitation of media interviews.

Find BIO5 stories and press releases:

bio5.org/news

PHOTOGRAPHY

We aim to capture our state-of-the-art 177,000 square foot space, 360+ researchers, outreach activities, events, and student involvement on camera as often as possible. From lab photos, to headshots of our researchers, to snapshots of BIO5-related program/events/conferences/tours, photos help bring our work to life.

This service is available upon request to BIO5 Members.

SOCIAL MEDIA

Social media plays a significant role in our marketing/communications strategy to build brand awareness and tell the BIO5 'story'. The institutional story is largely made up of your individual and collaborative research projects and achievements, as well as highlighting our mission to inspire the next generation of scientists and positively impact our state.

Social media consultations available upon request to BIO5 Members.

Engage with BIO5 on social media:

Twitter: [@UAZBIO5](https://twitter.com/UAZBIO5)

Facebook: [@UAZBIO5](https://www.facebook.com/UAZBIO5)

LinkedIn: [@UAZ-BIO5-INSTITUTE](https://www.linkedin.com/company/UAZ-BIO5-INSTITUTE)

Instagram: [@UAZBIO5](https://www.instagram.com/UAZBIO5)

MARKETING/EVENTS

We work to elevate BIO5's brand recognition through traditional marketing methods (web, print, social media), in outreach-related activities, and in hosted events, conferences, and seminars. Additionally, we coordinate 50+ BIO5 tours per year for guests ranging from student groups to local, state, and international VIPs. We also work with the BIO5 Ambassadors to engage UA students interested in the biosciences, biomedicine, and biotechnology in promoting and supporting BIO5.

BIO5 member participation in all BIO5 events/activities is highly encouraged and documented to fulfill grant/TRIF requirements (including tours, speaking engagements, and outreach involvement).

DESKTOP/DEVICE SUPPORT

BIO5 IT manager, Lomax Boyd, recently retired from the university and his position is currently vacant. We are finalizing job descriptions and hoping to get a great new candidate hired soon.

We encourage those of you with access to IT support through your home departments to reach out to those units at this time.

If you need more immediate assistance and do not hear back from someone on the BIO5 team within 24 hours, please contact 24/7 UITS support at 520-626-8324 or chat online at <https://support.arizona.edu/>

Thank you for your understanding and patience during this transition.

To submit a ticket to BIO5 IT Team:
keating.bio5.org/ticket_support/
